Whether you're conning the ship from the bridge of the *Enterprise* or just sailing a star-class on week ends, you should have a copy of *Simplified Rules of the Nautical Road* handy. Prepared for use by the Midshipmen at the U. S. Naval Academy, it will be useful to any mariner. Detailed, well-illustrated chapters cover "Vessels Approaching," "Lights and Shapes," "Rules for Preventing Collisions," "Restricted Visibility," "International Rules," "Inland Rules," "Pilot Rules for Inland Waters," "Helpful Hints," and "The Motorboat Act." Adherence to the Rules of the Road can save your ship, your life, and the lives of those who sail with you. See that you have a copy with you when you venture out.
